Lane Security

An Australian based company, Lane Security has been providing quality, state of the art security solutions for the home, office and industry for almost 90 years!

Lane Security products and accessories are designed for your living pleasure, because at Lane, we understand that's how you like to live.

After all, it's always the finishing touches that count!

- Innovation** Lane provides an on-going commitment to produce quality through innovation, the use of premium grade materials and state of the art manufacturing processes.
- Security** Our team of security experts combined with our vast experience is drawn upon to provide you with some of the safest, most secure products on the market today.
- Style** Lane's design philosophy is to provide fashion accessories for the home owner who has great attention to detail and likes to live in luxury.
- Easy to Install** Our products are highly functional, very practical and are extremely easy to install and use. They can be custom fit to any configuration and come with a handy, step by step guide for easy installation wherever possible.
- Easy to use** Our team of industrial designers begins with the end use in mind, the ease of usability for your day to day use in the home, apartment or office.
- Durable** 90 years manufacturing experience, ensures our products are built to last in the Australian climate and come to you with extended, extensive warranties to support them.
- Reliable** As part of Lane's on-going commitment to quality, our products are rigorously tested and are built to endure sustained use for many years to come. Wherever possible we build products to exceed Australian and International Standards.

Home Security Solutions

State of the art home security solutions for the discerning home owner!

Door furniture is the first thing that potential purchasers, clients and visitors come into contact with when entering a new building or home. The feel, operation and style of the knob set or lever on entry can strongly influence their opinion of the building's overall quality.

At Lane we work closely with security experts, architects and builders to constantly deliver unique, state of the art security solutions to compliment the colours, styles and symmetry of today's buildings. Our commitment to innovation offers products made with new age materials, such as POLESIUM™ - designed to resist rust and corrosion, yet offer UV and impact resistance.

Lane's innovative; market leading security features offer you and your family a level of security second to none. 'Construction keying' systems allow your builder and tradesmen access to your home while under construction. Once construction is completed all previous access is then made unavailable to anyone other than you.

Add to this the convenience of our single key system that allows all door locks, right throughout the house from key deadbolts, deadlatches, handle sets and sliding door locks to be keyed alike to the one key.

For "peace of mind in perfect style".

Styles, designs and finishes to match every decor

Accessories that finish off your home, increase the appeal of your renovation and realise the value potential of your investment. A carefully chosen product that compliments the design of the premises enhances the statement of style.

Lane offers one of the widest range of finishes and platings on the market. This allows you to match your security accessories with your home décor. Imagine door handles to match your appliances, electrical switches, lights, fans and cabinet hardware!

The ability to furnish front door to back door and everything in between is now possible with Lane!

New finishes include:

Satin Nickel, the perfect alternate finish to satin stainless

steel. To compliment the trend in satin stainless steel appliances and other detailing, Satin Nickel is the answer. The use of nickel as a base material provides superior durability and a quality finish, that does not show finger marks like satin stainless steel can.

Black Nickel is a quality finish that is smooth to touch. A popular contrast black trend, the deep lustre of Black Nickel has to be seen to be appreciated.

Polished Chrome is an ageless finish that is hard wearing and looks great. Available across the Lane suite of products, Polished Chrome compliments most décors. Polished Stainless Steel finish is used to match the look of chrome in door knobs.

Lever Sets

Platinum™ Collection - Architectural Lever Sets

When only the very best will do.

You deserve a little luxury to bring pleasure to your life.

The Platinum™ Collection by Lane is a stylish range of architectural lever sets offering you a choice of quality finishes, new colours and ideas that stretch the boundaries in design.

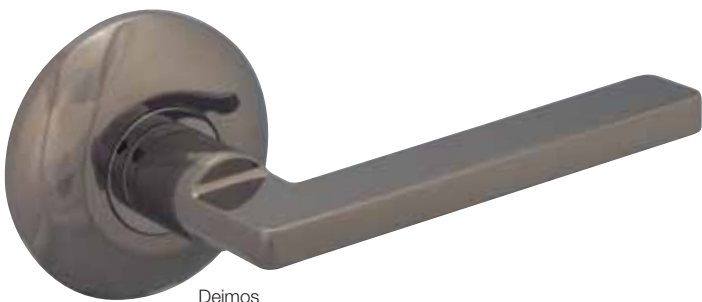

It takes time to achieve the perfect blend of material and product and the Platinum™ Collection suite of lever sets gives the final outcome a striking appearance.

Mix'n'match™ is a feature unique to the Platinum™ Collection, allowing you to mix'n'match™ different styles and rose finishes to give your lever set a personal touch. With Platinum™ Collection mix'n'match™, you can design the multiple finish combination to match your home décor.

Become your own interior decorator, mix'n'match™ your own personal style!

FEATURES A unique rolled edge rose design that is not only aesthetically pleasing, but highly suited for most applications, whether it be with mortise locks or as a privacy or passage set. Threaded rose covers mean your lever sets always look secure and the rose covers lock into place and fit flush every time.

Lane - Key-in Lever Sets

From the front door lever set, that offers a double sprung chassis, 6 pin solid brass cylinder security, through to the privacy, passage and dummy levers – Lane Security enables you to feature the same consistent style throughout your home!

Choose from three lever designs and finishes:

Concorde is softly curved, comfortable to hold and easy to operate. Concorde will match all types of furniture, door styles and décor fittings in the home.

Millennium is a modern style, crafted with a sleek lever design to match contemporary décor.

Domain the newest shape to our range. This curved lever features an ergonomic design that prevents your hand slipping off the lever. The smart design also offers a number of safety conveniences. With a return or curve of the lever, it prevents fire hoses from getting caught between the lever and the door and deters the lever from catching on clothes.

There is no need for expensive mortise locks and levers, all sets are complete with latches and all fixing items to give immediate locking.

FEATURES All levers operate by lifting the lever upwards or pushing down in the usual manner. This feature is ideal for everyday use or with the elderly, arthritic or in high use applications.

Profile Series Newport Lever Sets

As part of Lane's commitment to bring you quality at the best price, we have extended the functionality of the Profile Series.

New to the Profile Series range is the Newport Lever suite. Newport Levers offer the same contemporary style across the following functions: **Entrance** key in lever for all external doors, **Privacy** for those rooms within your home where a lock is required and **Passage/Dummy** where no lock is required at all, such as on cupboards or in passage ways.

For a consistent style right through out your home - without breaking the bank!

FEATURES A lever design for all applications throughout the home. Match the look from the front door to the back door and everything in between. Can be keyed alike to all Lane lock sets for single key convenience.

Knob Sets

Lane - Endeavour & Spartan Knob Sets

Unique to the market are Lane Endeavour door knobs in the Satin Nickel and Black Nickel finishes – Or choose from the more classic finishes of Polished Brass, Antique Bronze, Satin Stainless Steel and Polished Stainless Steel.

Lane Door knobs offer one piece knob construction for added strength and durability. Internal parts and chassis are made from drawn steel zinc dichromate for longer life and resistance to surface contamination. All Lane Door knobs come with three keys for your convenience.

6pin solid brass cylinders and an interior security shield means that Lane locks offer superior resistance to forced entry and will give you many years of service.

FEATURES Popular C4 keyway for easy keying alike, solid brass 6 pin cylinders for long life and security, double sprung chassis for smooth operation and durability, a unique "security shield" for easy installation and superior protection against forced entry.

Lane - Safety Release Deadlatch

The ultimate in security and convenience, while offering state of the art safety features. The 007 Safety Release Deadlatch offers the peace of mind of knowing you can retract the deadlatch internally, without needing the key.

The 007 Safety Release Deadlatch is extremely flexible and can be dead latched without the need to open the door. It can be dead locked from the inside or outside. Entry from the outside will unlock the Deadlatch and prevent accidental "Lock in".

The 007 Safety Release Deadlatch comes to you in four popular finishes including: Polished Brass, Polished Chrome, Brown and Satin Chrome Plate.

FEATURES Ergonomically designed turn knob for ease of use. The ability to activate the dead latch function without the need to open the door. Flush mounted external cylinder prevents the cylinder being jimmied off the door. Can be keyed alike to all Lane locks, for one key convenience.

Passage

FEATURES Available in Passage, Privacy and Connecting functions. Retro fits existing square cavity sliding door sets. Available in today's decorative finishes.

Peace of Mind in Perfect Style

Kwikset

Leading the market in internal cavity sliding door solutions is the round "Pocket" door lock by Kwikset. This innovative product and design is the benchmark in cavity sliding door locks, which others are now following. The pocket lock fits into the same door preparation used to fit swing door locks, making installation quick and easy. The unique push button latch, releases a finger tab that allows the door to be pulled closed. This means that the sliding door can sit flush with the door jamb, giving full door way width access

FEATURES Available in Passage, Privacy and Connecting functions. Push button latch releases finger tab on all functions. Large turnsnib for ease of operation. Modern round design to match today's decor.

Connecting

Door Bolts

Lane - Mini Bolt

The Lane Mini Bolt is an innovative bolt that is small in size but offers a high level of protection. The stainless steel bolt conceals all fixing screws, making it impossible to access the screws without unlocking the lock. The Mini Bolt offers great versatility as its slimline, compact shape means it can fit to most door or window configurations.

Designed in Australia for Australian conditions, this Mini Bolt is equally suited as a door bolt or window bolt and can be used on sheds, toolboxes and other areas where a bolt type lock is suitable.

The ability to remove the bolt makes this product handed, so the key and cylinder can be positioned away from tight corners making easy access and operation. The Mini Bolt is available in various finishes, from the powder coated colours to highly desirable polished finishes all designed to match the decor of your home.

FEATURES Small compact design making removal by force difficult. Concealed fixing screws. Stainless Steel bolt. A choice of 10 finishes available. Includes a high security bolt keeper. Can be keyed alike to all other Lane Window locks and door bolts.

Lane - Slimline & Patio Door Bolts

The Lane Slimline Patio Door Bolt provides the security solution for sliding or swinging doors. Unique in shape and design, this slimline bolt blends into the door, rather than stands out like a bulky accessory.

The bolt can be reversed, so that the keys and cylinder are not positioned in the corner where access and operation is difficult.

The high tensile steel 10mm bolt conceals the fixing screws making it impossible to access the screws without unlocking the lock and removing the bolt.

We understand that easy installation and smooth bolt operation are essential. Our detailed installation instructions make installing a breeze. The bolt has a centre punch point, so positioning the bolt locking hole is as easy as "punch the mark and drill the hole".

We believe that the Lane Slimline Patio Door Bolt is one of the most user friendly door bolts available. The inclusion of an "L" shaped bolt cap makes operation easy and suitable for the elderly, arthritic or disabled. The bolt can be operated with a walking stick if required.

FEATURES Slimline design, available in 5 popular powder coated colours. Hi tensile steel 10mm bolt for security. Concealed fixing points. "L" shape bolt cap for easy operation. Includes high security bolt keeper. Can be keyed alike to all other Lane Window locks and Door bolts.

Lane - Accessories

At Lane Security we have developed some inexpensive ways to assist the DIY renovator with self installation. In addition to the step by step instruction guides that come standard with every Lane product, we have developed the following innovations:

The unique **Door Lock Fixing Template**: The template has a series of pre-drilled holes, making door preparation simple and 100% accurate. Made from durable aluminium, this tradesman quality template will serve for many years of continued use and deliver accuracy to all drilling points.

Lever Installation Kit: Our new Lever Installation Kit comes complete with a high-speed drill bit, 32mm bi-metal hole saw, universal arbor and a high quality 25mm spade bit, the complete selection of items required for installation. This kit is unique to Lane Security and will allow you to install most lever and door locks.

Lever Extender Rings: Make installation more secure, more resistant to lever movement and less likely to result in a rose cover sliding partly into the cross bore hole of the door. The extender rings are compatible with Privacy and Passage function lever-sets or where a 60mm rose diameter is required to cover a 54mm cross bore hole in a door.

Dummy Lever Fixing Set: Is a secure way of fixing lever furniture in a dummy or single sided application. This set 'sandwiches' the door between the lever rose and the fixing plate, making for a more robust and durable fixing system that is designed to withstand the additional leverage that is typically associated with using levers.

Specialty Finishes

Lane Security has introduced a new and very stylish finish. The new **Black Nickel** finish is Nickel-plated for durability and has a protective coating. This process delivers a high appeal finish that is durable and smooth to touch.

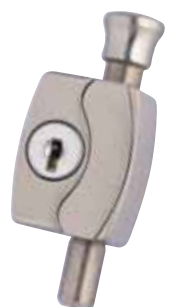

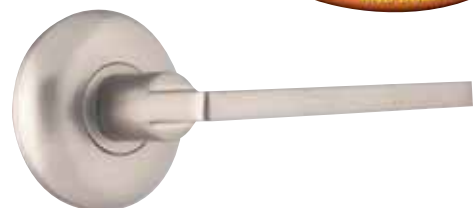

Black Nickel adds a touch of class to contemporary homes!

The Black Nickel finish is available in Decorative Trim sets, Cavity Sliding Door Sets, Dummy Trims, Deadbolts, Door Locks, Lever sets and Mini Bolts.

Satin Nickel is similar in appearance to Satin Stainless Steel, only it has a honey colour through a clear powder coat finish that gives a deep quality appearance. Smooth to touch, Satin Nickel hides marks and fingerprints. The added durability of Nickel offers resistance and long life.

Satin Nickel is part of Lane's commitment to promote consistency of style throughout your home, by offering an option to the popular stainless steel fixtures in your home!

Platino™

European styling and premium quality make Platino the superior choice for architectural hardware to compliment the style of any home.

Platino offers a style of contemporary lines and classic form. Platino is the perfect fusion of superior function with stylish design. Premium Quality Engineering – every product is manufactured for durability and is backed up by a Lifetime Guarantee!

Choose from four seductive finishes – styled to suit any elegant décor. The new range of finishes includes: Polished Chrome, Satin Chrome, Satin Nickel or Classic brass. Whether you're after minimalist style or timeless class, Platino has the right fixture for you!

Be inspired by the huge selection of products available in the Platino range. From Door Stops & Holders to Door accessories including Door bolts & Hooks, Door Chains & Guards. There is also a range of Platino Clothes Hooks that set new standards in contemporary style!

Lifetime Guarantee – For your ultimate peace of mind all Platino products are guaranteed for life! If for any reason any Platino product should fail to perform satisfactorily in its intended application, simply return it to your place of purchase and it will be replaced free of charge.

Platino™

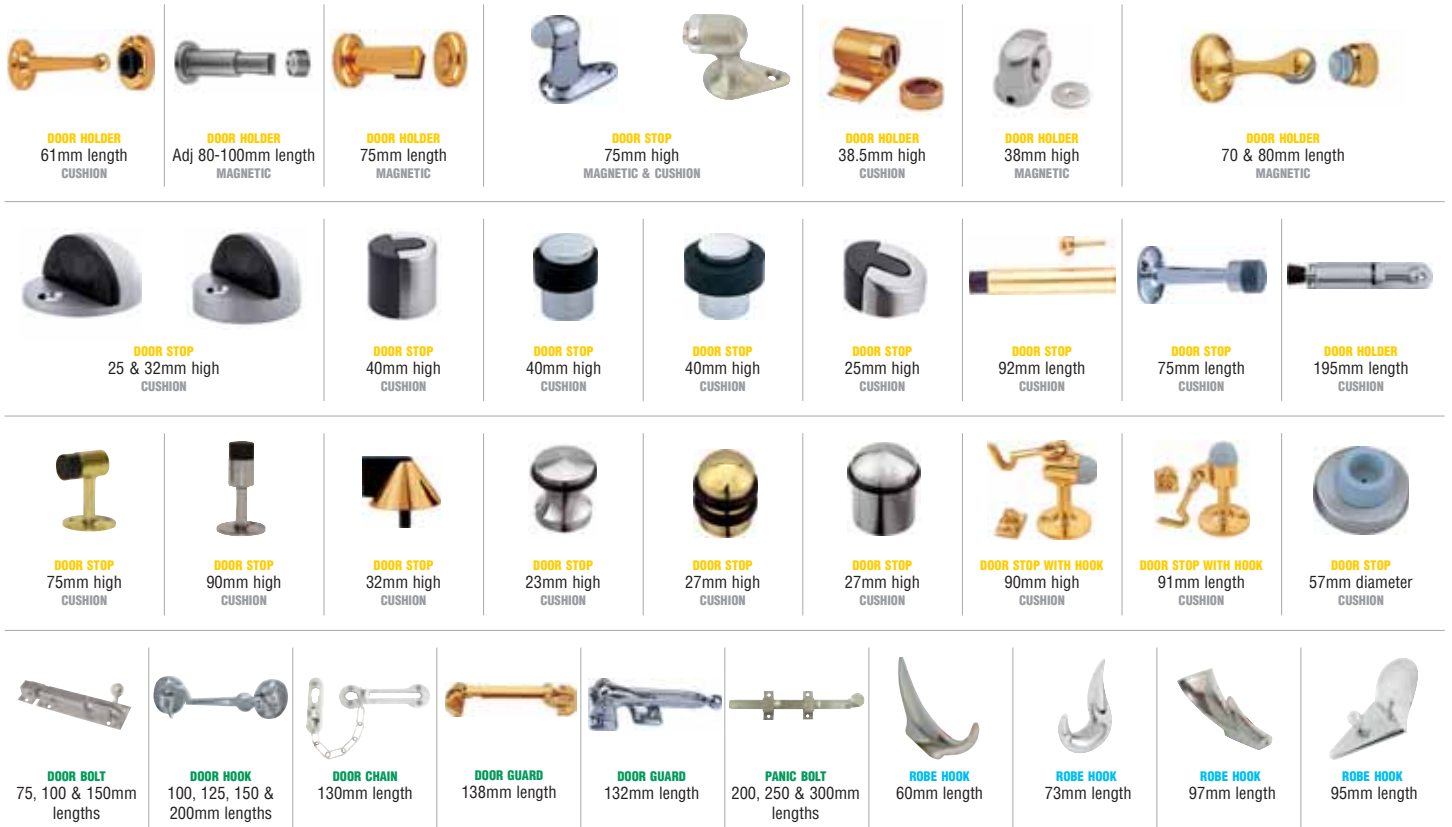

Inspiration for your home

The Platino Range!

The Lane Warranty

5 YEAR FINISH WARRANTY, 10 YEAR MECHANICAL WARRANTY

Lane Security products are guaranteed to be free from finish defects for 5 years and free from mechanical and workmanship defects for 10 years from the original date of purchase. If a finish or mechanical defect occurs, simply return the product together with proof of purchase to the place of purchase for replacement. In addition to these generous warranties, are all rights available to you by statute.

A finish deterioration occurring from the use of paints, solvents or acid cleaners is not a defect in the finish and is not covered by this warranty. Likewise a mechanical failure due to abuse, misuse or incorrect installation will not be covered by this warranty.

Removal and re-fitting of product and any handling and transportation costs are not covered by this warranty. Lane Security reserves the right to make changes to styles and colours without notification. If an identical model is not available we will supply a comparative model. Spare parts and accessories purchased separately to complete locksets are not covered by this warranty.

Should a lockset or lever set require cleaning, we recommend using a moist cloth. If a cleaning agent is required, we recommend a mild soap solution that is free of ammonia, caustic agents or solvents.
