

Good To Know

Coach Screws

Coach Screws are used to replace bolts where there is no access to the rear to add a nut to the connection. Used when an ordinary screw will not be strong enough. Zenith Coach Screws are made to Property Class 4.6 and comply to AU/NZ & DIN Standards:

- Zinc Plated
- Galvanised: AS/NZS 1393:1996
- Tech-Shield™ for Treated Pine: AS/NZS 1393:1996
- Stainless Steel 304 and 316: DIN 571
