

Product Disclosure Information Sheet Washers

Product description

Washers M6

Relevant building code clauses

B1 Structure — B1.3.1, B1.3.2, B1.3.3 (b, d, e, f, g, h, i, j, p, q), B1.3.4

B2 Durability — B2.3.1 (a)

Primary Use

sealing washer

Scope of use

This products is designed to be assembled on screws used to fasten polycarbonate cladding.

Conditions of use

Joints need to be designed so that they comply with the load requirements of B1 without exceeding the fastener capacity.

Fasteners need to be installed by a competent professional in accordance with the manufacturer's recommendations.

Installation Instructions:

Washers are used to distribute the load of a threaded fastener, such as a bolt or nut. Before a fastener is driven into a surface, a washer may be placed in order to prevent looseness and provide protection. This prevents the bolt head and nut from damaging the surfaces of the two fastened materials.

Manufacturing Details

Screws manufactured in Australia to strict ITW Buildex design and specifications

Warnings and bans

At the time of print, this product is not subject to any known warnings and bans found in Building Act 2004.
